## Pharmaceutical Supply Chain Initiative (PSCI) DATA SHARING AGREEMENT

The Pharmaceutical Supply Chain Initiative (PSCI) is a group of major pharmaceutical companies who share a vision of better social, economic and environmental outcomes for all those involved in the pharmaceutical supply chain. This vision is detailed in the [PSCI Principles](#) and includes improved conditions for workers, economic development and a cleaner environment for local communities.

The members of PSCI recognize the burden that is created for your company by multiple information requests and onsite audits of your sustainability performance. In order to reduce this burden, the PSCI has created standardized protocols and tools for assessing suppliers' alignment with the [PSCI Principles](#).

We are currently employing these tools with a group of select suppliers and would like to invite your company to participate.

Specifically, we ask you to complete a Self Assessment Questionnaire, and agree to an on-site audit. Both the SAQ and on-site audit process have been designed to minimize time requirements, while still ensuring we capture the detailed information that is required.

**In order to reduce the burden of multiple requests for information, we would like permission to share your responses with PSCI members. Please check the boxes below to indicate which PSCI members you are willing to share data with.**

### **Process for participating suppliers:**

- Complete data sharing form (this document) and [PSCI Self-Assessment Questionnaire](#), returning both documents—within two weeks—to PSCI Secretary at [PSCI@bsr.org](mailto:PSCI@bsr.org)
- PSCI Secretary will inform the supplier of path forward for audit
- When audit proceeds, PSCI-selected auditor will contact supplier directly to arrange next steps; PSCI Secretary will have provided the auditor with your completed SAQ in advance of the audit
- Supplier data will be shared with PSCI member companies as indicated on this form (right). Supplier may choose to share data with additional companies.
- Individual PSCI member companies may follow-up directly with supplier
